To: **The Secretary**

**PETITION FOR RULEMAKING**

West Virginia Educational Broadcasting Authority (“WVEBA”), by its attorneys and pursuant to the *Public Notice* announcing acceptance of reservation showings for certain vacant FM allotments, respectfully requests that the Commission modify the FM Table of Allotments in Section 73.202(b) of the Rules to reserve the allocation of Channel 287A to St. Marys, West Virginia, for noncommercial, educational use.<sup>1</sup> In support of this request, WVEBA submits the following:

**I. BACKGROUND**

On September 20, 2003, the Commission issued a *Public Notice* announcing the acceptance of reservation showings until November 21, 2003 for certain vacant FM allotments.<sup>2</sup> WVEBA, a public benefit corporation established by the West Virginia Legislature, currently operates three noncommercial educational television stations and

---

<sup>1</sup> Media Bureau Opens Window to Permit Noncommercial Educational Reservation Showings for Certain Vacant FM Allotments. *Public Notice*, DA 03-2990 (rel. September 30, 2003).

<sup>2</sup> *Id.*

*No. of copies req'd*  
*List below*  
*OTY*  
*fm-MB*  
*03-435*

nine noncommercial educational radio stations in West Virginia. If Channel 287A is allotted to St. Marys as a reserved channel, WVEBA intends to apply for and prosecute an application for construction permit and, if its application is granted, to construct a non-commercial educational FM station there.

## **II. WVEBA MEETS THE FIRST AND/OR SECOND SERVICE REQUIREMENTS**

WVEBA establishes the need for a new NCE service in St. Marys by meeting the Commission's first requirement that maximum class facilities at the proposed allotment site would provide a first and/or second NCE service to at least 10 percent of the population within the proposed station's service area and that such population is at least 2,000 persons. As shown in the attached Engineering Report, WVEBA would provide a first and/or second NCE radio service to 10.3% of the population within the 1m/V contour of its proposed station in St. Marys. Additionally, the 2000 census population tally receiving a first or second service is 13,558 persons. Thus, the proposed facility meets and exceeds the 10 percent and 2,000 person requirements.

## **III. NO RESERVED BAND FM CHANNELS ARE AVAILABLE FOR USE**

WVEBA performed a detailed, channel by channel review of the reserved noncommercial educational FM channels. As shown in the attached Engineering Report, WVEBA meets the second requirement set forth by the Commission that no reserved band FM channels be available for use at St. Marys. First, WVEBA demonstrates contour overlap preclusion for all NCE-FM channels using the maximum antenna height about average terrain ("HAAT") and at maximum effective radiated power ("ERP"). Second, WVEBA's tests show contour overlap preclusion at the minimum antenna

HAAT and at minimum ERP on any reserved band channel at the city center coordinates for the community of license.

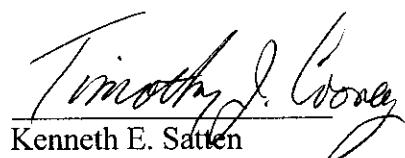

#### **IV. CONCLUSION**

WVEBA respectfully requests that the Commission issue a Notice of Proposed Rulemaking pursuant to Section 1.407 of the Commission's Rules seeking public comment on the modification to Section 73.202(b) requested herein. WVEBA has demonstrated that the proposed St. Marys facility would meet the first and/or second service requirements and that a new NCE-FM station on any reserved channel would be considered "technically precluded." Therefore, the public interest would be served through the reservation of Channel 287A to St. Marys for noncommercial educational use.

Respectfully submitted,

**WEST VIRGINIA EDUCATIONAL  
BROADCASTING AUTHORITY**

**ENGINEERING TECHNICAL STATEMENT PREPARED BY RYAN WILHOUR OF  
THE FIRM KESSLER AND GEHMAN ASSOCIATES, INC.**

**TELECOMMUNICATIONS CONSULTING ENGINEERS IN SUPPORT OF A  
PETITION FOR RULEMAKING TO RESERVE THE VACANT COMMERCIAL FM  
CHANNEL 287A ST. MARY'S WV<sup>1</sup> ALLOTMENT BY DEMONSTRATING THAT  
THE APPLICANT IS TECHNICALLY PRECLUDED FROM USING A RESERVED  
CHANNEL PURSUANT TO THE SECOND REPORT AND ORDER RELEASED ON  
APRIL 10, 2003 IN THE MATTER OF REEXAMINATION OF COMPARATIVE  
STANDARD FOR NONCOMMERCIAL EDUCATIONAL APPLICANTS.,**

**FCC 03-44.**

The firm Kessler and Gehman Associates, Inc. has been retained by West Virginia Educational Broadcasting Authority ("WVEBA") to prepare engineering studies and the engineering portion of a Petition for Rulemaking ("PFRM") to reserve the vacant commercial FM Channel 287A St. Mary's, WV allotment.

**Discussion**

This PFRM for reservation of the commercial FM channel 287A St. Mary's, WV allocation satisfies the first or second noncommercial educational ("NCE") service criteria and the technical preclusion criteria.

## KESSLER AND GEHMAN ASSOCIATES, INC.

St. Mary's, WV

PAGE 2

### I. First or Second Service Showing

All NCE-FM allocations, licenses and /or construction permits which have a transmitter site within a minimum safe search radius<sup>2</sup> from the allocated site are listed in Exhibit 1. Exhibit 2 demonstrates the facilities<sup>3</sup> listed in Exhibit 1 which have 1 mV/m contour overlap with the maximized channel 287A St. Mary's, WV allocation.

Exhibit 2 depicts a single green contour which represents the 1 mV/m contour of the maximized allocation; several blue contours which represent the 1 mV/m contour of neighboring NCE-FM facilities, and red shading which characterize the area(s) within the maximum class facility's 1 mV/M service contour having more than 2 overlapping 1 mV/m service contours from NCE-FM neighboring facilities.

The 2000 census population tally within the allotted 1 mV/m contour of the maximized allocation is 132,139 persons. The 2000 census population tally receiving first or second service is 13,558 persons<sup>4</sup>. The percentage of population within the proposed St. Mary's, WV maximum facility 1 mV/m contour which would receive a first or second NCE-FM service is 10.3%. Thus, the St. Mary's, WV maximized allotted facility meets and exceeds the 10% and 2,000 person requirement.

### II. Technical Preclusion of New NCE Service

---

<sup>2</sup> The following distances were added together to formulate a "safe search radius":

- 1) Maximum distance to 1 mV/m contour for a maximum allowable facility in the applicable zone pursuant to section 73.211;
- 2) Maximum distance to the 1 mV/m contour for Class of the allocation pursuant to section 73.211;
- 3) An additional 30 km buffer was added for a "safety factor."

<sup>3</sup> Facilities which did not have 1 mV/m contour overlap with the allotment had their contours removed in order to simplify the map.

<sup>4</sup> The areas not shaded by red within the 1 mV/m contour of the maximized allocation

**KESSLER AND GEHMAN ASSOCIATES, INC.**

St. Mary's, WV

PAGE 3

Pursuant to paragraph 35<sup>5</sup>, of the Second Report and Order released on April 10, 2003, technical preclusion showings have been prepared to provide a reliable and efficient proxy of technical preclusion.

Exhibit 3 is the result of a preclusion study<sup>6</sup> conducted at the allotted transmitter site using minimized facilities for its station class<sup>7</sup>. The exhibit demonstrates contour overlap preclusion for all NCE-FM channels.

Exhibit 4 is the result of a preclusion study conducted 27 km at 0 degrees from the allotted transmitter site using the authorized maximum facilities for a Class A facility. The exhibit demonstrates contour overlap preclusion for all NCE-FM channels.

Exhibit 5 is the result of a preclusion study conducted 27 km at 90 degrees from the allotted transmitter site using the authorized maximum facilities for a Class A facility. The exhibit demonstrates preclusion for all NCE-FM channels.

Exhibit 6 is the result of a preclusion study conducted 27 km at 180 degrees from the allotted transmitter site using the authorized maximum facilities for a Class A facility. The exhibit demonstrates contour overlap preclusion for all NCE-FM channels.

Exhibit 7 is the result of a preclusion study conducted 27 km at 270 degrees from the allotted transmitter site using the authorized maximum facilities for a Class A facility. The exhibit demonstrates contour overlap preclusion for all NCE-FM channels.

---

<sup>5</sup> The Second Report and Order states: “[A] showing will be based on a circle, centered in the proposed community of license and drawn with a radius one kilometer less than the distance to the predicted 60 dBu strength signal of a maximum same-class facility. The reservation showing must establish that no rule-compliant facility can be authorized at maximum antenna height above average terrain (“HAAT”) and with maximum effective radiated power (“ERP”) on any reserved band channel at four equally-spaced locations on the circle, beginning with 0 (zero) degrees. In addition, the reservation showing must establish that no same-class rule-compliant facility can be authorized at minimum antenna HAAT and with minimum ERP on any reserved band channel at the city center coordinates for the community of license.”

<sup>6</sup> pursuant to section 73.509 and 73.507

<sup>7</sup> pursuant to section 73.211(a)

**KESSLER AND GEHMAN ASSOCIATES, INC.**

St. Mary's, WV

PAGE 4

**Conclusion**

It is herein demonstrated that the proposed St. Mary's, WV facility would meet the first or second service requirements and that a new NCE-FM station on any reserved channel between 201 and 220 would be considered "technically precluded" based on the fact that no rule-compliant facility could be authorized on any reserved band channel at or in near proximity to the allotted St. Mary's, WV transmitter site. Hence, the need for a NCE-FM service in the proposed service area has been demonstrated and accordingly, pursuant to the Second Report and Order released on April 10, 2003 in the matter of Reexamination of Comparative Standard for Noncommercial Educational Applicants, the St. Mary's, WV Channel 289 Class A allotment should be reserved for non-commercial use.

**Certification**

I, Ryan Wilhour, declare and state that I am a graduate electrical engineer with a Bachelor of Science in Electrical Engineering and my qualifications are a matter of record with the Federal Communication Commission, and that I am an engineer in the firm of Kessler and Gehman Associates, Inc., and that firm has been retained by to prepare the foregoing technical statement.

The foregoing technical statement and aforementioned engineering work are true and correct to the best of my knowledge. Executed on November 17, 2003.
